

Dear Michele,

June 3, 2013

God bless you. It was nice to hear you deliver such a powerful presentation on areas of possible collaboration and intervention at the Medical Center of Arkansas. I was privileged to sit by you at the award dinner. Thank you very much for the warm hug.

Would I be asking too much if you could send me your presentation so I can forward to the relevant agencies to see if we can establish some form of linkages?

Thank you.

Sincerely,

Foluke O. Areola,
